

„TO WHOM IT MAY CONCERN“

Subject: Aircraft Maintenance Organization - PART 145

Brno, Czech Republic, February 2010

Dear Sir, Madam,

HERBST AERO Inc. has the honour to provide you with the latest information on its **NEW Aircraft Maintenance Organization (AMO)**, as we have just been approved and certified according to **EASA PART 145**.

Our current Aircraft Maintenance Organization rating comprises*:

- Cessna
- ZLIN
- L-200 Morava
- Jungmann T-131 PA

* Rating will be expanding based on customer's request.

We are located at the International Airport BRNO TURANY (LKTB), which is in operation throughout the year

- **Organization** of material and spare parts
- **Modern and spotless** facilities

- **Professional equipment** for aircraft malfunctions diagnosis
- **Appropriate equipment** for aircraft malfunction repair

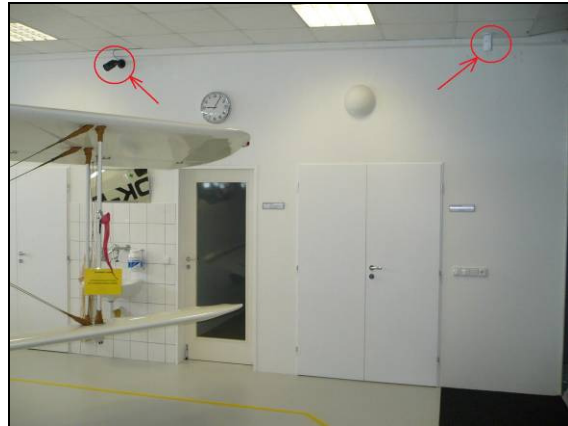

- **High quality service** provided to aircraft owners and operators
- **Skilled mechanics** with many years of experiences in the field of aviation

- **Handling the aircraft** with respect to your valuable property
- **Electrical and navigation systems** can be installed and modified

- **SAFETY PLACE** for you and your aircraft

HERBST AERO premises including our Aircraft Maintenance workshops are **monitored 24/7 by camera and alarm systems.**

We, as the Air School and aircraft operator, do appreciate your demands and expectations in regard to:

- **Respect to the operation cost of your aircraft**
Our mechanics are fully equipped to carry out maintenance or repairs to your aircraft on its domestic location
- **Respect to your busy life**
No need to spend time transferring your airplane to and from AMO; we'll be pleased to collect and return your plane at any desired location. All ferry flights are carried out by skilled pilots from our Air School
- **Respect to running your business**
Rental aircraft are available should your aircraft be grounded during maintenance or repair
